

Information Bulletin

Yukon Water Board Secretariat staff email address change

Effective Monday, March 1, all Yukon Water Board Secretariat staff email addresses will change from:

first.last@yukon.ca to *first.last@yukonwaterboard.ca*.

This change will recognize the independence of the Water Board and align with the Board's office email ywb@yukonwaterboard.ca and website www.yukonwaterboard.ca.

In recognition of this change, the Water Board encourages users to update their email address books and mailing lists.

How will this affect email communication with the Yukon Water Board Secretariat?

Emails ending in @yukon.ca and @gov.yk.ca will continue to arrive in Secretariat employees' @yukonwaterboard.ca inboxes and there will be no disruption to email services.

For assistance or questions, please contact the Water Board office at 867-456-3980 or email at ywb@yukonwaterboard.ca.

Background

The Secretariat provides technical and administrative support to the Yukon Water Board, an independent administrative tribunal responsible for regulating the use of water and deposit of waste into water in Yukon. Secretariat staff are Yukon Government public service commission resources and function as the Board's public-facing agency. The visual independence of the Secretariat from Yukon Government is important when providing service to the public. A move from previous email domains to a @yukonwaterboard.ca enhances and aligns the independence of the Secretariat and Board it supports.
